Exceptional pool Solutions

**PURILY AI  
ROBOT CO. LTD**

# EXCEPTIONAL POOL EXPERIENCE

- ✓ 4D-All -Round cleaning areas , Floor,walls, water-line and pool water surface
- ✓ Intelligent AI scanning with Sonar and infrared sensors with multiple Gyroscope
- ✓ Hybrid power Systems, Battery , Power supply, option for easy battery replacement from end user

- ✓ Various pool Sizes and shapes adoption
- ✓ App Control and OTA Software Update
- ✓ Customizable coloring (B2B)
- ✓ Anti Tangling design and algorithm
- ✓ App Control via IOT and Bluetooth
- ✓ 4x Independent Driving Wheels
- ✓ Dual filtration cambers
- ✓ AI obstacle maneuverer

Revolutionize pool cleaning with the smartest 4-D robot. Advanced AI navigation expertly maps and tackles entire pool - floors, walls, waterlines, and surface. Customized controls automate or target clean. Anti-tangle design, rapid drainage, LEDs, and flexible power options ensure safety and convenience. With intelligent mapping and powerful drives, experience the most advanced cleaner for sparkling pool freedom.

Power through any pool surface with **4 independent** driven wheels and **4 independent** active front and rear brushes adapting to all pool types, plus dual filtration for maximum suction power - the smartest scrubbing for a maximally clean pool.

**Aqua Sense Remote Control** lets you take total control of your pool cleaning with the first-of-its-kind remote directing all robot movements - forward, backward, left, right, up wall, down wall, auto clean, pause and more - for precision cleaning via above-water directional commands.

Take pool cleaning control anywhere with the Signal Buoy - the revolutionary **floating remote manager**. With indicator light and extended power cord, it connects your robot to the app via WiFi, allowing full wireless direction from poolside or miles away. Pilot precision cleaning remotely in battery or powered mode for total command of your pool robot from home or away.

Achieve complete 4D cleaning with the revolutionary buoy - auto clean, wall clean, floor clean at the touch of a button. As your robot tackles the floor, walls and waterline, the WiFi-connected buoy expertly clears the pool surface. Now your entire pool gets the smartest clean from top to bottom, edge to edge.

Power up and take control with the Advanced Power Supply Unit - the **hybrid operating system** for robotic pool cleaners. This revolutionary power supply keeps your robot connected via a 15m/18m cord so you can direct cleaning right from the app. Designed for bigger pools and extended run times, it's the smart way to tackle large-scale cleaning. Go the distance with the Advanced Power Supply Unit and stay wifi connected from anywhere.

Power up smarter cleaning with our revolutionary fast-charging, easily replaceable batteries. Available in 9600mAh or 15000 mAh for runtimes up to 3 hours, our batteries can be easily changed by the end-user for multiple battery operation. Our smart power solutions keep your robot going

# Get you JIX

## Product Parameters

Robot Size	52 X 45 x 26 CM
Cycle Length	3 hours
Cable Length	15 m or 18 m
Supply Voltage	IP68, Bluethoth and Wifi
Battery	3 hours, with option of easy replacement o
Filler	4 L dual filtration system 2 panels fine net filer 60 micron

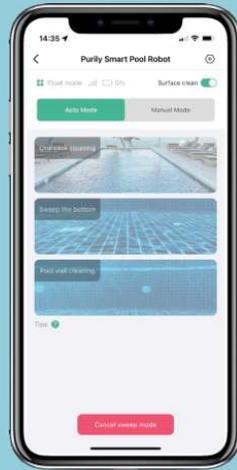

Brushes	4 Active
Cleaning Mode	Pool surface while mapping
Moving Speed	13 Meter/Minute
Filter Box Size	6 Litre
Package Size	109 x 62.5 x 40 CM
Weight of Cleaner	12 KG

# 360° DEGREE APP CLEANING FUNCTIONS

uaBot Control is an innovative mobile application designed for pool maintenance using IoT technology. This app allows users to remotely control and monitor their pool cleaning robot from anywhere, providing a convenient and efficient way to ensure a clean and well-maintained pool. AquaBot Control is compatible with both Android and iOS platforms, offering a user-friendly interface for seamless operation.

## Multiple control modes

- ✓ WIFI / Bluetooth two communication protocols
- ✓ Support Android/iOS dual system APP
- ✓ Automatic cleaning/ manual control and other modes

for android

for IOS

## **Purliy Bio , til 20 M pool**

The commercial pool robot is a heavy-duty automatic cleaner designed for frequent, intensive use in large commercial swimming pools. It has a large filter capacity and powerful motors to thoroughly vacuum and scrub pool floors and walls. Smart navigation technology allows the robot to methodically cover the entire pool surface without getting stuck. Durable construction and options like remote control operation or WiFi connectivity make the robot ideal for efficiently cleaning commercial pools with minimal supervision required.

## **Purliy Bio , til 20 M pool**

### *The BioBot Pool Cleaning Robot*

Specially designed for biotic and natural pools, the BioBot is an agile and intelligent cleaning robot that can efficiently clean multi-level pools and avoid sensitive regeneration zones. With smart technology tailored for biotic pools, the BioBot provides efficient and gentle cleaning without disrupting the delicate balance of living pool ecosystems. It's the ideal maintenance solution for complex natural pools.

WE are happy to provide you with all the needed information , details and awaiting your

We at Purily WE are happy to provide you with all the needed information , details and awaiting to start our journey together.

We are committed to delivering the highest quality, best performing pool cleaning robot and service on the market, and we are continuously developing and improving our products and services. We greatly value our partnerships built on trust, and look forward to a long and fruitful relationship with you. kindly,

**Firas Sakas**

## Get your Fix Exceptional pool solutions

Dongguan Qingshur Intelligent Robot Co., Ltd. was established in 2020 and is headquartered in Dongguan Songshan Lake Science and Technology Park. The team gathers sweeping/mopping AI robots, underwater manned thruster, drone-controlled algorithms, and many other talented teams. With full chain industry experience and industrial resources such as market sales, product research and development, on-site production, and supply chain, we have our own professional intelligent manufacturing factory for production and are committed to building a high-tech company.

### **Supply Chain and Network:**

Purily boasts a robust and flexible supply chain, supported by a strong network of materials and spare parts manufacturing companies. Our extensive material and spare parts network enables us to meet dynamic market demands, maintain production efficiency, and swiftly address challenges related to material availability or component sourcing.

### **ODM/OEM Capabilities:**

Purily specializes in ODM and OEM solutions, particularly in the field of intelligent pool robotics. Our capabilities in rapid prototyping, electronic product development, and efficient manufacturing allow us to tailor solutions to meet your specific needs. Whether it's customizing existing products or developing entirely new solutions.

Purily's ongoing investment in R&D, strategic partnerships, and a resilient supply chain underscore our commitment to delivering high-quality products consistently. Our corporate culture, focused on innovation, integrity, and collaboration, aligns with the values trust based relationships.

**Welcome customers from all parties to cooperate and negotiate:**

**Firas** Europe and Middle east
